RE: Challenge to the City of Mississauga and elected officials.

Her Worship Mayor & Members of Council:

Sept. 23, 2010

Given how important the 2010 election is to the future of Mississauga, in this critical transitional period, that voters and candidates alike need the facts to fully evaluate the issues and candidates before voting - the City of Mississauga & the Mayor is challenged to provide the following information or services.

- 1). Candidates have open access to the City's budget staff to fully understand and have their questions answered regarding the City's finances.
- 2). That the City should assist in every way to ensure all candidates meetings in every Ward and more then one if possible. Including a City wide all-candidates for Mayor candidates, to be televised and which should be at City centre.
- 3). The Mayor provide a full and detailed platform (as should all Councillors seeking re-election).
- 4). That the City make public all law suties, past and present which name the City and the Mayor, their costs, claims, pay-outs and at what stage is the Mantella suite that notes the Mayor's abuse of power.
- 5). That it be made public, by way of a doctors report, the state of the Mayor's health and likelihood of her being able to fully service the next 4 year term. Especially given the fact, a by-election for just the office of Mayor would cost between 1.8 and 2 Million of taxpayers dollars.
- 6). The fully disclosure the details regarding 675352 Ontario Limited, Macran Associates Limited, the McCallion family holdings referred to in the Apr. 23, 1982 Toronto Sun article (Mississauga gold rush), any McCallion involvement in the land purchased by Triple Five Corp. (Ghermezian) and any other McCallion business deals/companies that could be questioned because of the Mayor's involvement.

I am willing to discuss my letter with you and there is an answering machine you can leave a detailed private message on. **My phone number is (905) 278-7877 & E-mail donbar@eol.ca.**

Sincerely yours

Donald Barber
